产品说明 Product Description

一体式制冰机
All-in-one type ice maker

- 1、造型美观高雅，全不锈钢设计
 - 2、微电脑探测控制系统，全自动化设计，故障少
 - 3、采用中外名牌压缩机，直立高效结冰盘，制冰速度快
 - 4、断电亦断水，断水亦断电，冰满自动停机
 - 5、采用304不锈钢外壳，进口压缩机，进口水泵
1. All stainless steel design, beautiful and noble.
 2. Microcomputer control system, fully automatic, less failure.
 3. Using famous brand compressor, high efficiency vertical ice tray, ice making faster.
 4. Stop running without either power or water.
 5. 304 stainless steel shell, imported compressor and water pump.

一体式
KS-80B
KS-110B
KS-150B
KS-180B
KS-230B

产品参数 Parameters

长度 Length	46/52/57/63/69cm	包装 Package	长度 Length	+5
宽度 Width	50/54/58/62/66cm		宽度 Width	+5
高度 Height	88/91/94/97/100cm		高度 Height	+12
电压 Voltage	220v	产冰量KG/24H	28/45/68/90/110kg	
额定电流 Rated Current	1.4/1.9/2.3/2.8/3.2A	制冷剂 refrigerant	134a	
频率 Frequency	50Hz	重量KG Weight	35/46/62/68/76KG	
功率 Power	300/400/500/600/700W	冰格 ice cube tray	5*8/5*11/5*14/5*16/6*16	
储冰量/kg	10/20/25/35/50kg	冰形 ice shape	方形 refrigerant 23*23	
制冷方式 cooling way	风冷/水冷 water cooled/air cooling		冰重/g Ice Weight/pcs	10g

雪花制冰机

Snow ice maker

产品说明 Product Description

1. 采用优质不锈钢外壳, 防腐耐用. 独立型一体式结构. 紧凑简洁. 节省空间.
 2. 箱体隔热层为无氟发泡. 保温效果好. 内胆为无氟抑菌型. 节能环保.
 3. 采用优质高效R134a无氟压缩机. 零部件均经SGS公司检测. 符合欧盟RoHS环保指令要求.
 4. 所用电器安全零部件均有 "TUV" 或 "VDE" 安全认证. 认证零部件. 安全可靠.
 5. 制冰过程采用全电脑程序控制. 进口电脑芯片. 控制可靠. 运行平稳.
 6. 采用意大利Haitec二级减速器及韩国GGM电机. 噪音低. 运行平稳可靠. 制冰机顶部设有散热孔及风机. 保证减速器电机在高温恶劣条件下也能可靠运行.
 7. 采用专利技术的行腔隔片式制冰蒸发器. 制冷效率高. 产冰量大.
 8. 螺旋滚刀挤压式制冰型式. 结构紧凑. 实现冰、水自动分离. 冰刀刃口的优化设计. 使得所制冰形细小实用.
 9. 独特的水箱浮球式进水系统. 保证无残水余水. 节水节能.
1. Made of high quality stainless steel shell, anti-corrosion and durable, stand-alone integrated structure, simple and compact, space-saving.
 2. Tank insulation layer is fluoride-free foaming insulation effect is good, the liner is fluoride-free antibacterial, energy-saving and environmental protection.
 3. High quality and efficient fluoride-free R134a compressors, parts are check by SGS Company, meet with EU RoHS environmental directives.
 4. Components are used in electrical safety "TUV" or "VDE" safety certification, certified components, safe and reliable.
 5. Ice-making process with full computer control, imported computer chips, reliable control, operate operation.
 6. With Italian Haitec second level reducer and Korea GGM motor, low noise, operate operation and reliable. Top of the ice machine without heat emission hole and fan, the motor reducer harsh conditions at high temperatures can be reliably.
 7. Use of patented technology line cavity spacer ice making evaporator, cooling, high efficiency, large capacity ice.
 8. Screw extrusion ice hob types, compact structure, to realize the ice and water automatic separation, Optimal design of skate blade, so that the ice small practical.
 9. Unique water tank float system to ensure that without residual water, saving water and energy.

产品参数 Parameters

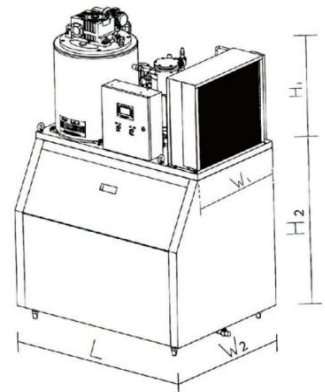

型号Model	电压Voltage	功率Power	尺寸外形Outlook Dimension	重量Weight	产量Output	pc/20'
KS-S-40	220V 50Hz	385w	46X62X77cm	40Kg	40Kg/24h	90

片冰机
slice ice maker

产品规格 Product Specifications

产品说明 Product Description

1. 控制系统采用世界先进的微电脑控制，自动控制制冰机的整个制冰过程，反转、离低压报警、冰满等电脑智能显示，使制冰机控制可靠、运行稳定、故障率低，便于维修。
 2. 蒸发器采用优质合金材料，应用一次成型工艺，避免了由于焊接而造成的制冷系统脏堵及传到系统下降导致的热交换率降低等问题，因此高效节能，使运行成本降低。
 3. 采用静止固定的立式蒸发器设计，避免了滚动运转的卧式蒸发器由于滚动运转使动密封磨损而造成的制冷系统泄漏等问题，因此长久耐用，制冷系统不易泄露。
 4. 冰刀采用旋转滚动运行方式，与固定冰刀相比，具有阻力小、能耗低、无噪音、无冰粉产生等优点。该系列制冰机广泛应用于超市、食品保鲜、食品加工等行业。
1. The control system uses most advanced microcomputer control in the world, automatic control of the whole process of production ice, reversing, alarm from the low pressure, full of ice and other computer intelligent display, make ice machine control, reliable, stable operation, failure rate, easy maintenance.
2. Evaporator made of high quality alloy material, adopt fully fashioned process, to avoid the dirty wall refrigeration system problems due to caused by welding and reach to system down caused by heat exchange rate lower problems and so on, so energy efficient, so running costs.
3. Using a stationary fixed vertical evaporator design, to avoid horizontal scrolling operation of the evaporator so that the rolling operation dynamic seal wear and tear caused by the cooling system leaks and other problems, so long-term durability, easy cooling system leak.
4. Ice skates adopt rotary rolling operation way, compared with the fixed skates, with little resistance, low power consumption, without noise, without ice powder and so on. The series ice machines are widely used in supermarkets, food preservation, food processing and other industries.
