

Kasei Hedge Trimmer

Developed with a new second-generation low-emission gasoline engine, emissions in line with the EPA standard ,the Euro II and the second phase of China(2015 implementation);

New overall design, innovative and generous;

Adopted the gearbox of stable performance and high reliability which has been tested by the market, and can let the users more confidence;

Steel blade with chrome plating, blade wear resistance and longer life.

Specification

Model : HT 600

Discharge capacity (ml) : 25.4

Net weight (kg) : 6.3

Cutting width (mm) : 600

Blade type : Double size

Power (kW/r/min) : 0.6/7500

Fuel tank capacity (L) : 0.8

Package dimension (mm) : 1175 x 263 x 290
